

The Rehabilitation Network

John Brett

Case Manager & RN General Manager

Professional Member of the Vocational Rehabilitation Association

Profile

A Clinical Hypnotherapist, Counsellor and Personal Development Coach with 20 years experience working with individuals and groups to facilitate personal growth and change, John joined The Rehabilitation Network as a Case Manager in 2006. Though his background may be unusual for this type of work, he was recruited for his astute assessment and treatment planning skills and his knack for problem solving with a solution focused approach. During that time he has gained extensive experience with a wide variety of injuries including multiple orthopaedic, spinal, acquired brain injury and psychological sequelae and has demonstrated a natural ability to thoroughly assess the needs of an injured / disabled person and develop a multidisciplinary approach to rehabilitation, and provide vocational assistance with a return to work where feasible.

His understanding of the Case Management process together with his grasp of working with insurers and solicitors and his ability to forge good working relationships with all key stakeholders led to his appointment as the Quality Assurance Manager for The Rehabilitation Network in 2009, where he became responsible for supervising the work of all RN's Case Managers. He is now the proprietor and General Manager.

Key skills include:

- Using counselling / psychotherapy skills to facilitate outcome orientated change and growth and sensitively support injured or disabled individuals in their rehabilitation.
- Employing astute assessment and analytical skills to clearly define a current situation; identify needs and set appropriate objectives.
- Reviewing and adapting treatment through flexible and creative use of a variety of pro-active strategies with regular feedback.
- Highly developed interpersonal skills—excellent communication and listening skills, motivating, working well with and inspiring others.
- Creative and methodical—probing, perceptive, resourceful, solution focused and adaptable.
- Possessing emotional maturity—confidence, self-awareness, tolerance, compassion, empathy.
- Training skills—applying personal development and life skills coaching in seminars, workshops.
- Accredited Supervisor providing integrative clinical supervision and personal development to professionals including Counsellors, Psychotherapists, Hypnotherapists and Case Managers.

Administration:

Rivendell, 4 South Scarle Lane, North Scarle, Lincoln, LN6 9ER
